

Timber Heritage license plates are now available from your local DMV!

These plates are available for an additional registration fee of \$20 per year. The funds generated will accrue to the MLA. . . and when sufficient funds are generated, the money will be dedicated to support timber advocacy programs.

So, when you receive your vehicle registration renewal, show your support for the timber industry by driving down to your local DMV and purchase a Timber Heritage license plate.

Please feel free to call the MLA with any questions.
